

# How To Measure For The Right Size Door

Please use the following steps to determine which size garage door you should buy.

(Measure your opening and fill in dimensions.)

- STEP 1 - A. Door opening Width \_\_\_\_\_ Ft \_\_\_\_\_ In
- STEP 2 - B. Door opening Height \_\_\_\_\_ Ft \_\_\_\_\_ In
- STEP 3 - C. \*Headroom (minimum 11") \_\_\_\_\_ Ft \_\_\_\_\_ In
- STEP 4 - D. Sideroom - Left side \_\_\_\_\_ Ft \_\_\_\_\_ In
- Sideroom - Right side \_\_\_\_\_ Ft \_\_\_\_\_ In
- (minimum 4" each side)

If you plan to have an electric door opener installed, the headroom required increases approximately 3 inches depending on the opener manufacturer.
